

GOOD NEWS

Just when you thought all the news was bad, here comes Charles Massegee with the best news you have ever heard. *God loves you. There is life after death. Jesus Christ died on the cross to pay the penalty for your sins and make a better life for you, here and here-after.*

From teenage evangelist to President of the Conference of Southern Baptist Evangelists for an unprecedented three terms, Charles has been sharing this Good News Message for over fifty years. He has conducted over 1,750 church and city-wide crusades from coast to coast. He has been enthusiastically received across the nation in football stadiums, auditoriums, tents, and in local churches with crowds exceeding 10,000 people a night. Countless others have heard him as he appeared before civic organizations, on television and radio, youth rallies, high schools and universities.

Beverly Massegee is a miracle of God's redeeming grace. Popular in the field of entertainment, and combining a beautiful voice with a glamorous appearance, she climbed to the top rung in show business. At the summit, however, she found boredom and emptiness.

She began to resort to chemical props in order to alleviate the vacuum in her life. Then one day, while driving home, she passed a Baptist Church where Angel Martinez was preaching in a revival. The music awakened a nostalgia in her heart, and the sermon, affirming God's forging love as both complete and permanent, aroused a desire within her to leave the "far county" and return to the "Father's House".

She made a commitment, and now for many years, this trophy of God's saving love has been witnessing for Christ by music and personal testimony.

Beverly says, *"I pray that God will use my testimony to help young and old alike to rise again from their despair and defeat to the knowledge of the saving power of the Love of Christ."*

A NEW FASHIONED

Revival

*Of a love worth sharing!
